DETAILED ACTION

This communication is responsive to amendment filed on April 11, 2005.

Applicant replaces Figs. 1-3, amends claim 1, 4, 5, 6, 7, 8, 11, 14, 17, 18, 19, 20, 22, and adds new claims 25-28.

Allowable Subject Matter

1. Claims 1-28 are allowed.
2. The following is an Examiner's Statement of Reasons for Allowance: Claims 1-28 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a method of processing scanner density values of a digitized image of an original film image such that a projection of the digitized image closely matches an image which a film projector would produce using a positive print of the original film image comprising the steps of digital color balancing by writing the printing density values and a reference patch onto a first film; printing the first film with the reference patch onto a second film according to a predetermined printing procedure; adjusting any non-linearity between RGB code values and a display device output; and scaling the adjusted RGB code values to a desired bit depth. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
